

Active travel and Modeshift Stars

WE WALK TO SCHOOL

At Moseley C of E we encourage children, and their families, to travel to school in a sustainable way.

We already have our green accreditation and we are now working towards achieving our bronze accreditation in the Modeshift Stars scheme. This is a national schools awards scheme which promotes the benefits of active travel. We participate in a number of initiatives that inspire our children to think about their journeys to school, such as:

- Living Streets Walk to School campaign where children earn badges for the active journeys to school they make.
- Road Safety week
- Sustrans Big Walk and Wheel
- Bikeability
- Scootability

It is fantastic to see all of our children and families embracing this and trying out different ways to travel to school sustainably.
