

KS1 Geography Progression of Knowledge and Skills

Year 1

Year 2

Locational Knowledge: Name and locate the world's seven continents and five oceans

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the name of two continents (Europe and Asia). ➤ To know that a continent is a group of countries. ➤ To know that they live in the continent of Europe. ➤ To know that an ocean is a large body of water. ➤ To know the name of two of the world's oceans (Atlantic Ocean and Pacific Ocean). 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Locating two of the world's seven continents on a world map. ➤ Locating two of the world's oceans (Atlantic Ocean and Pacific Ocean) on a world map. ➤ Showing on a map which continent they live in. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To be able to name the seven continents of the world. ➤ To be able to name the five oceans of the world. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Locating all the world's seven continents on a world map. ➤ Locating the world's five oceans on a world map. ➤ Showing on a map the oceans nearest the continent they live in.
---	---	--	--

Locational Knowledge: Name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that the UK is short for 'United Kingdom'. ➤ To know that a country is a land or nation with its own government. ➤ To know that the United Kingdom is made up of four countries and their names. ➤ To know the name of the country they live in. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Locating the four countries of the United Kingdom (UK) on a map of this area. ➤ Showing on a map which country they live in and locating its capital city 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that a sea is a body of water that is smaller than an ocean.* ➤ To know that there are four bodies of water surrounding the UK and to be able to name them. ➤ To name some characteristics of the four capital cities of the UK. ➤ To know the four capital cities of the UK. ➤ To know that a capital city is the city where a country's government is located. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Locating the surrounding seas and oceans of the UK on a map of this area . ➤ Locating the capital cities of the four countries of the UK on a map of this area. ➤ Identifying characteristics (both human and physical) of the four capital cities of the UK. ➤ Showing on a map the city, town or village where they live in relation to their capital city.
--	--	---	--

Human and Physical Features: Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the four seasons of the UK. ➤ To know that 'weather' refers to the conditions outside at a particular time. ➤ To know that different parts of the UK often experience different weather. ➤ To know that a weather forecast is when someone tries to predict what the weather will be like in the near future. ➤ To know that weather conditions can be measured and recorded. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing how the weather changes with each season in the UK. ➤ Describing the daily weather patterns in their locality. ➤ Confidently using the vocabulary 'season' and 'weather'. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that the Equator is an imaginary line around the middle of the Earth. ➤ To know that, because it is the widest part of the Earth, the Equator is much closer to the sun than the North and South poles. ➤ To know that the North Pole is the northernmost point of the Earth and the South Pole is the southernmost point of the Earth. ➤ To know that different parts of the world experience different weather conditions and that these are often caused by the location of the place. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Locating some hot and cold areas of the world on a world map. ➤ Locating the Equator and North and South Poles on a world map. ➤ Locating hot and cold areas of the world in relation to the Equator and the North and South poles.
--	--	---	---

Human and Physical Features: Use basic geographical vocabulary to refer to key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that physical features means any feature of an area that is on the Earth naturally 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Recognising some physical features in their locality. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that coasts (and other physical features) change over time. ➤ To know some key physical features of the UK. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing the key physical features of a coast using subject specific vocabulary.
---	---	---	--

Human and Physical Features: Use basic geographical vocabulary to refer to key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop

KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that human features means any feature of an area that was made or built by humans. 	SKILLS: <ul style="list-style-type: none"> ➤ Recognising some human features in their locality 	KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that a sea is a body of water that is smaller than an ocean. ➤ To know that human features change over time. ➤ To know some key human features of the UK. 	SKILLS: <ul style="list-style-type: none"> ➤ Describing and understanding the differences between a city, town and village. ➤ Describing the key human features of a coastal town using subject specific vocabulary.
---	---	--	--

Geographical Skills and Fieldwork: Question

SKILLS: <ul style="list-style-type: none"> ➤ Ask questions about the world around them. 	SKILLS: <ul style="list-style-type: none"> ➤ Recognising there are different ways to answer a question.
--	--

Geographical Skills and Fieldwork: Observe

SKILLS: <ul style="list-style-type: none"> ➤ Commenting on the features they see in their school and school grounds. 	SKILLS: <ul style="list-style-type: none"> ➤ Discussing the features they see in the area surrounding their school when on a walk. ➤ Asking and answering simple questions about human and physical features of the area surrounding their school grounds.
---	--

Geographical Skills and Fieldwork: Measure

SKILLS: <ul style="list-style-type: none"> ➤ Asking and answering simple questions about the features of their school and school grounds. 	SKILLS: <ul style="list-style-type: none"> ➤ Collecting quantitative data through a small survey of the local area/school to answer an enquiry question.
--	---

Geographical Skills and Fieldwork: Record

SKILLS: <ul style="list-style-type: none"> ➤ Drawing some of the features they notice in their school and school grounds in correct relation to each other on a sketch map. 	KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that an interview can be a way to find out people's views about their area. 	SKILLS: <ul style="list-style-type: none"> ➤ Classifying the features they notice into human and physical with teacher support. ➤ Taking digital photographs of geographical features in the locality. ➤ Making digital audio recordings when interviewing someone.
--	--	--

Geographical Skills and Fieldwork: Present

SKILLS: <ul style="list-style-type: none"> ➤ Using a simple recording technique to express their feelings about a specific place and explaining why they like/dislike some of its features. 	KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that a tally chart is a way of collecting data quickly. ➤ To know that a pictogram is a chart that uses pictures to show data. 	SKILLS: <ul style="list-style-type: none"> ➤ Presenting data in simple tally charts or pictograms and commenting on what the data shows. ➤ Asking and answering simple questions about data
--	--	---

Geographical Skills and Fieldwork: Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage

KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that atlases give information about the world and that a map tells us information about a place 	SKILLS: <ul style="list-style-type: none"> ➤ Using an atlas to locate the UK. ➤ Using a map of the UK to locate the four countries. Beginning to use an atlas to locate the four capital cities of the UK. Using a world map and globe to locate two of the world's seven continents (Europe and Asia). ➤ Using an atlas to locate the Atlantic Ocean and Pacific Ocean. 	KNOWLEDGE: <ul style="list-style-type: none"> ➤ To know that a globe is a spherical model of the Earth. ➤ To begin to recognise world maps as a flattened globe. ➤ To know that maps need a title and purpose. ➤ To know that maps need a key to explain what the symbols and colours represent. 	SKILLS: <ul style="list-style-type: none"> ➤ Recognising why maps need a title. ➤ Using an atlas to locate the four capital cities of the UK. ➤ Using a world map, globe and atlas to locate all the world's seven continents. ➤ Using a world map, globe and atlas to locate the world's five oceans.
--	---	--	--

Geographical Skills and Fieldwork: Use simple compass directions (North, South, East and West) and locational and directional language, to describe the location of features and routes on a map

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know simple directional language (e.g near, far, up, down, left, right, forwards, backwards). 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Using directional language to describe the location of objects in the classroom and playground. ➤ Using directional language to describe features on a map in relation to other features (real or imaginary). ➤ Responding to instructions using directional language to follow routes. ➤ Beginning to use the compass points (N, S, E, W) to describe the location of features on a map. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that a compass is an instrument we can use to find which direction is north. ➤ To know which direction is N, S, E, W on a map. ➤ 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Using locational language and the compass points (N, S, E, W) to describe the location of features on a map. ➤ Using locational language and the compass points (N, S, E, W) to describe the route on a map. ➤ Using locational language and the compass points (N, S, E, W) to plan a route in the playground or school grounds. ➤ Using a map to follow a prepared route.
---	--	---	--

Geographical Skills and Fieldwork: Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that an aerial photograph is a photograph taken from the air above. ➤ To know that a map is a picture of a place, usually drawn from above. ➤ To know that symbols are often used on maps to represent features. ➤ To know what a sketch map is. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Recognising local landmarks on aerial photographs . ➤ Recognising basic human features on aerial photographs. ➤ Recognising basic physical features on aerial photographs. ➤ Drawing freehand maps (of real or imaginary places) using simple pictures or symbols. ➤ Drawing a simple sketch map of the classroom and playground using simple pictures, colours or symbols to represent features. ➤ Adding labels to sketch maps. ➤ Using simple picture maps and plans to move around the school 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that maps need a key to explain what the symbols and colours represent. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Recognising landmarks of a city studied on aerial photographs and plan perspectives. ➤ Recognising human features on aerial photographs and plan perspectives. ➤ Recognising physical features on aerial photographs and plan perspectives. ➤ Drawing a map and using class agreed symbols to make a simple key. Drawing a simple sketch map of the playground or school grounds using symbols to represent human and physical features. ➤ Finding a given OS symbol on a map with support. ➤ Beginning to draw objects to scale (e.g show the school playground is smaller than the school or school field). ➤ Using an aerial photograph to draw a simple sketch map using basic symbols for a key
--	---	--	--

Year 1- Vocabulary progression

Geographical skills and fieldwork	Human and physical geography		Locational knowledge
Geographical	Human	Physical	
<ul style="list-style-type: none"> aerial view aerial photograph distance location locate near far left right north east south west features direction physical feature human feature similar different 	What is it like here?

KS2 Geography Progression of Knowledge

Lower KS2

Upper KS2

Locational Knowledge: *Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities*

KNOWLEDGE:

- To know where North and South America are on a world map.
- To know the names of some countries and major cities in Europe and North and South America.
- To know the names of some of the world's most significant mountain ranges.
- To know the names of some of the world's most significant rivers.
- To know that mountains, volcanoes and earthquakes largely occur at plate boundaries.
- To know that climate zones are areas of the world with similar climates.*
- To know the world's different climate zones (equatorial, tropical, hot desert, temperate and polar).*
- To know that biomes are areas of world with similar climates, vegetation and animals.*
- To know the world's biomes. *
- To know vegetation belts are areas of the world which are home to similar plant species.*

SKILLS:

- Locating some countries in Europe and North and South America using maps.
- Locating some major cities of the countries studied.
- Locating some key physical features in countries studied on a map including significant environmental regions.
- Locating some key human features in countries studied.
- Locating the world's most significant mountain ranges on a world map and identifying any patterns.
- Locating where the world's volcanoes are on a map and identifying the 'Ring of Fire'.
- Locating some of the world's most significant rivers and identifying any patterns.

KNOWLEDGE:

- To know the name of many countries and major cities in Europe and North and South America.
- To know the location of key physical features in countries studied.
- To name and describe some of the world's vegetation belts (ice cape, tundra, coniferous forest, deciduous forest, evergreen forest, mixed forest, temperate grassland, tropical grassland, mediterranean, desert scrub, desert, highland).*

SKILLS:

- Locating more countries in Europe and North and South America using maps.
- Locating major cities of the countries studied. Locating key physical features in countries studied on a map .
- Locating key human features in countries studied.
- Identifying significant environmental regions on a map.
- Using maps to show the distribution of the world's climate zones, biomes and vegetation belts.

Locational Knowledge: *Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time*

KNOWLEDGE:

- To know the name of some counties in the UK (local to your school).
- To know the name of some cities in the UK (local to your school).
- To know the name of the county that they live in and their closest city.
- To begin to name the twelve geographical regions of the UK. To know the main types of land use.*
- To know some types of settlement.*

SKILLS:

- Locating some counties in the UK (local to your school).
- Locating some cities in the UK (local to your school). Identifying key physical and human characteristics of counties, cities and/or geographical regions in the UK.
- Beginning to locate the twelve geographical regions of the UK. Identifying how topographical features studied have changed over time using examples.
- Describing how a locality has changed over time, giving examples of both physical and human features.

KNOWLEDGE:

- To know the name of many counties in the UK.
- To know the name of many cities in the UK.
- To confidently name the twelve geographical regions of the UK.
- To know that London and the South East regions have the largest population in the UK.

SKILLS:

- Locating many counties in the UK.
- Locating many cities in the UK.
- Confidently locating the twelve geographical regions of the UK.
- Identifying key physical and human characteristics of the geographical regions in the UK.
- Understanding how land-use has changed over time using examples.
- Explaining why a locality has changed over time, giving examples of both physical and human features. .

Locational Knowledge: Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that countries near the Equator have less seasonal change than those near the poles. ➤ To know that the Equator is a line of latitude indicating the hottest places on Earth and splitting our globe into the Northern and Southern Hemispheres. ➤ To know lines of longitude are invisible lines on the globe that determine how far east or west a location is from the Prime Meridian. ➤ To know lines of latitude are invisible lines on the globe that determine how far north or south a location is from the Equator. ➤ To know the Tropics of Cancer and Capricorn are lines of latitude and mark the equatorial region; the countries with the hottest climates. ➤ To know the Northern and Southern hemisphere are 'halves' of the Earth, above and below our Equator and have alternate seasons to each other. ➤ To know the boundaries of the polar regions are marked by the invisible lines the Arctic and Antarctic circle. ➤ To know the patterns of daylight in the Arctic and Antarctic circle and the Equatorial regions. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Finding the position of the Equator and describing how this impacts our environmental regions. ➤ Finding lines of latitude and longitude on a globe and explaining why these are important. ➤ Identifying the position of the Tropics of Cancer and Capricorn and their significance. ➤ Identifying the position of the Northern and Southern hemispheres and explaining how they shape our seasons. ➤ Identifying the position and significance of both the Arctic and Antarctic Circle. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the Prime/Greenwich Meridian is a line of longitude which goes through 0° and determines the start of the world's time zones. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Identifying the location of the Prime/Greenwich Meridian and time zones (including day and night) and explaining its significance. ➤ Using longitude and latitude when referencing location in an atlas or on a globe.
--	---	--	---

Place Knowledge

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the negative effects of living near a volcano. ➤ To know the positive effects of living near a volcano. ➤ To know the negative effects an earthquake can have on a community. ➤ To know ways in which communities respond to earthquakes. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing and beginning to explain similarities between two regions studied. ➤ Describing and beginning to explain differences between two regions studied. ➤ Describing how and why humans have responded in different ways to their local environments. ➤ Discussing how climates have an impact on trade, land use and settlement. ➤ Explaining what measures humans have taken in order to adapt to survive in cold places. ➤ Describing and explaining how people who live in a contrasting physical area may have different lives to people in the UK. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know some similarities and differences between the UK and a European mountain region. ➤ To know why tourists visit mountain regions. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing and explaining similarities between two environmental regions studied. ➤ Describing and explaining differences between two environmental regions studied. ➤ Explaining how and why humans have responded in different ways to their local environments in two contrasting regions. ➤ Understanding how climates impact on trade, land use and settlement. ➤ Explaining how humans have used desert environments. Using maps to explore wider global trading routes.
---	--	---	--

Human and Physical Geography: Describe and understand key aspects of: Physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that the water cycle is the processes and stores which move water around our Earth and to be able to name these. ➤ To know the courses and key features of a river. ➤ To know the different types of mountains and volcanoes and how they are formed. ➤ To know that an earthquake is the intense shaking of the ground. ➤ To know that a biome is a region of the globe sharing a similar climate, landscape, vegetation and wildlife.* ➤ To know the world's biomes.* ➤ To know that the hottest biomes are found between the Tropics of Cancer and Capricorn. ➤ To know that climate zones are areas of the world with similar climates.* ➤ To know the world's different climate zones.* ➤ To know that climates can influence the foods able to grow. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Mapping and labeling the seven biomes on a world map. ➤ Understanding some of the causes of climate change. ➤ Describing how physical features, such as mountains and rivers are formed, and why volcanoes and earthquakes occur. ➤ Describing where volcanoes, earthquakes and mountains are located globally. ➤ Describing and explaining how physical features such as rivers, mountains, volcanoes and earthquakes have had an impact upon the surrounding landscape and communities. ➤ Describing how humans use water in a variety of ways. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know vegetation belts are areas of the world that are home to similar plant species.* ➤ To name and describe some of the world's vegetation belts. ➤ To know why the ocean is important. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing and understanding the key aspects of the six biomes. ➤ Describing and understanding the key aspects of the six climate zones. ➤ Understanding some of the impacts and causes of climate change. ➤ Describing and understanding the key aspects and distribution of the vegetation belts in relation to the six biomes, climate and weather. ➤ Giving examples of alternative viewpoints and solutions regarding an environmental issue and explaining its links to climate change.
--	--	--	---

Human and Physical Geography: Describe and understand key aspects of: Human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the main types of land use.* ➤ To know the different types of settlement.* ➤ To know water is used by humans in a variety of ways. ➤ To know an urban place is somewhere near a town or city. ➤ To know a rural place is somewhere near the countryside. ➤ To know that a natural resource is something that people can use which comes from the natural environment. ➤ To know the threats to the rainforest both on a local and global scale. ➤ To know that fair trading is the process of ensuring workers are paid a fair price, have safe working conditions and are treated with respect and equality. ➤ To know the UK grows food locally and imports food from other countries. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing and understanding types of settlement and land use. ➤ Explaining why a settlement and community has grown in a particular location. ➤ Explaining why different locations have different human features. ➤ Explaining why people might prefer to live in an urban or rural place. ➤ Describing how humans can impact the environment both positively and negatively, using examples. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know the global population has grown significantly since the 1950s. ➤ To know which factors are considered before people build settlements. ➤ To know migration is the movement of people from one country to another. ➤ To know that natural resources can be used to make energy. ➤ To know some positive impacts of humans on the environment. ➤ To know some negative impacts of humans on the environment. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Describing and understanding economic activity including trade links. ➤ Suggesting reasons why the global population has grown significantly in the last 70 years. ➤ Describing the 'push' and 'pull' factors that people may consider when migrating. ➤ Understanding the distribution of natural resources both globally and within a specific region or country studied. ➤ Recognising geographical issues affecting people in different places and environments. ➤ Describing and explaining how humans can impact the environment both positively and negatively, using examples
---	--	--	--

Geographical Skills and Fieldwork: Question

SKILLS:

- Beginning to choose the best approach to answer an enquiry question.

SKILLS:

- Developing their own enquiry questions.
- Choosing the best approach to answering an enquiry question.

Geographical Skills and Fieldwork: Observe

KNOWLEDGE:

- To know the main types of land use (agricultural, residential, recreational, commercial, industrial and transportation)

SKILLS:

- Mapping land use in a small local area using maps and plans.
- Making a plan for how they wish to collect data to answer an enquiry based question, with the support of a teacher.
- Asking and answering one-step and two-step geographical questions.
- Observing, recording, and naming geographical features in their local environments.

SKILLS:

- Making sketch maps of areas studied including labels and keys where necessary.
- Making an independent or collaborative plan of how they wish to collect data to answer an enquiry based question.

Geographical Skills and Fieldwork: Measure

KNOWLEDGE:

- To know an enquiry-based question has an open-ended answer found by research.
- To know how to use various simple sampling techniques.
- To know what a questionnaire and an interview are.
- To know that quantitative data involves numerical facts and figures and is often objective

SKILLS:

- Using simple sampling techniques appropriately.
- Making digital audio recordings for a specific purpose.
- Designing a questionnaire / interviews to collect quantitative fieldwork data.

KNOWLEDGE:

- To know that qualitative data involves qualities, characteristics and is largely opinion based and subjective.*
- To know what a range of data collection methods look like.
- To know how to use a range of data collection methods.

SKILLS:

- Selecting appropriate methods for data collection.
- Designing interviews/questionnaires to collect qualitative data.
- Beginning to use standard field sampling techniques appropriately

Geographical Skills and Fieldwork: Record

KNOWLEDGE:

- To know a Likert scale is used to record people's feelings and attitudes.
- To know that qualitative data involves opinions, thoughts and feelings and is often subjective.

SKILLS:

- Taking digital photos and labeling or captioning them.
- Making annotated sketches, field drawings and freehand maps to record observations during fieldwork. Beginning to use a simplified Likert Scale to record their judgements of environmental quality.
- Using a questionnaire/interviews to collect qualitative fieldwork data

KNOWLEDGE:

- To know that GIS is a digital system that creates and manages maps, used to support analysis for enquiries

SKILLS:

- Using GIS (Geographical Information Systems) to plot data sets (e.g prevalence of crime in certain areas) onto base maps which can then be analysed.
- Using a simplified Likert Scale to record their judgements of environmental quality.
- Conducting interviews/questionnaires to collect qualitative data.
- Interpreting and using real-time/live data.
- To identify and mitigate potential risks during fieldwork.

Geographical Skills and Fieldwork: Present

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know what a bar chart, pictogram and table are and when to use which one best to represent data ➤ To know that an annotated drawing or sketch map is hand drawn and gives a rough idea of features of an area without having to be completely accurate. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Presenting data using plans, freehand sketch maps, annotated drawings, graphs, presentations, writing and digital technologies when communicating geographical information. ➤ Finding answers to geographical questions through data collection. ➤ Analysing and presenting quantitative data in charts and graphs. ➤ Suggesting different ways that a locality could be changed and improved. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that a pie chart can represent a fraction or percentage of a whole set of data. ➤ To know a line graph can represent variables over time. ➤ To be aware of some issues in the local area. 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Deciding how to present data using plans, freehand sketch maps, annotated drawings, graphs, presentations, writing at length and digital technologies when communicating geographical information. ➤ Drawing conclusions about an enquiry using findings from fieldwork to support your reasonings. ➤ Evaluating evidence collected and suggesting ways to improve this. ➤ Analysing quantitative data in pie charts, line graphs and graphs with two variables.
--	---	--	---

Geographical Skills and Fieldwork: Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied

<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To understand that a scale shows how much smaller a map is compared to real life. ➤ To recognise world maps as a flattened globe 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Beginning to use maps at more than one scale. ➤ Using atlases, maps, globes, satellite images and beginning to use digital mapping to locate countries studied . Using atlases, maps, globes and beginning to use digital mapping to recognise and describe physical features and human features in countries studied . ➤ Using the scale bar on a map to estimate distances. ➤ Finding countries and features of countries in an atlas using contents and index. Zooming in and out of a digital map. 	<p>KNOWLEDGE:</p> <ul style="list-style-type: none"> ➤ To know that contours on a map show height and slope 	<p>SKILLS:</p> <ul style="list-style-type: none"> ➤ Confidently using and understanding maps at more than one scale. ➤ Using atlases, maps, globes and digital mapping to locate countries studied. ➤ Using atlases, maps, globes and digital mapping to describe and explain physical and human features in countries studied. ➤ Identifying, analysing and asking questions about distributions and relationships between features using maps (e.g settlement distribution). ➤ Using the scale bar on a map to calculate distances. ➤ Recognising an increasing range of Ordnance Survey symbols on maps and locating features using six-figure grid references. ➤ Recognising the difference between Ordnance Survey and other maps and when it is most appropriate to use each. ➤ Beginning to use thematic maps to recognise and describe human and physical features studied. ➤ Using models and maps to talk about contours and slopes. Selecting a map for a specific purpose.
--	---	---	--

Geographical Skills and Fieldwork: Use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world

KNOWLEDGE:

- To know that an OS (Ordnance survey) map is used for personal use and organisations use it for housing projects, planning the natural environment and public transport and for security purposes.
- To know that an OS map shows human and physical features as symbols.
- To know that grid references help us locate a particular square on a map.
- To know the eight points of a compass are north, south, east, west, north-east, south-east, north-west, south-west

SKILLS:

- Beginning to use the key on an OS map to name and recognise key physical and human features in regions studied.
- Accurately using 4-figure grid references to locate features on a map in regions studied. Beginning to locate features using the 8 points of a compass. Using a simple key on their own map to show an example of both physical and human features. Following a route on a map with some accuracy.
- Saying which directions are N, S, E, W on an OS map. Making and using a simple route on a map.
- Labelling some features on an aerial photograph and then locating these on an OS map of the same locality and scale in regions studied.

SKILLS:

- Confidently using the key on an OS map to name and recognise key physical and human features in regions studied.
- Accurately using 4 and 6-figure Grid References to locate features on a map in regions studied. Confidently locating features using the 8 points of a compass.
- Following a short pre-prepared route on an OS map.
- Identifying the 8 compass points on an OS map.
- Planning a journey to another part of the world using six figure grid references and the eight points of a compass.
